PROFILE

Dynamic Computer Science Engineering fresher seeking an opportunity in Data Analytics and Data Science to apply analytical, technical, and problem-solving skills while gaining practical industry experience.

EDUCATION

2022-2026	Bachelor's Degree at City Engineering College	CGPA: 7.79/10.0
2022	PUC at RNS PU College	Percentage: 67.66%
2020	SSLC at Yashasvi Vidyaniketan School	Percentage: 67.68%

PROJECTS

Retail Sales & Customer Analytics Project | Python, Pandas, NumPy, Matplotlib, Seaborn

- Developed a retail analytics project using the Superstore dataset to analyze customer behavior, sales performance, and regional business insights.
- Performed **EDA, Sales Trend Analysis, Geographic Analysis, and RFM Customer Segmentation** to extract actionable business insights.
- Created dashboards and visualizations to identify profitability trends, customer purchasing behavior, and top-performing products.

Hand Gesture Recognition System | Python, Machine Learning, Computer Vision

- Developed a real-time gesture-to-speech conversion system using Python, Machine Learning, and Computer Vision.
- Integrated gesture recognition and communication technologies to improve accessibility for individuals with speech or hearing impairments.

Crop Recommendation System Using Machine Learning | Python, Machine Learning

- Developed a machine learning-based crop recommendation system using soil and environmental parameters.
- Applied Predictive Modeling and Data Analysis to improve agricultural decision-making and crop productivity.

INTERNSHIPS

Data Science & AI Intern | Besant Technologies (Ongoing)

- Working on projects involving **Python, SQL, Statistics, Data Analytics, Data Visualization, Basic Machine Learning, and Feature Engineering**.
- Gaining hands-on experience in **Data Preprocessing, EDA, Business Analytics, and Insight Generation** using real-world datasets.

Data Analytics Intern | Internship Studio

- Performed data analysis using **Python, SQL, Excel, and Data Visualization Tools** through real-world case studies and guided analytics projects.
- Strengthened **Analytical Thinking, Problem-Solving, and Business Insight Generation** skills through practical data-driven projects.

Soft Skills Training | TNS India Foundation (C2TC Program)

- Developed professional skills in **Communication, Teamwork, Time Management, Email Writing, and Workplace Ethics**.

SKILLS

Programming & Analytics: Python, SQL, DBMS, Data Analytics, Data Cleaning, EDA, Statistics, Basic Machine Learning

Libraries & Visualization: Pandas, NumPy, Matplotlib, Seaborn, Power BI, Excel

Tools: Jupyter Notebook, GitHub, VS Code, MySQL Workbench

Soft Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration

LANGUAGES

English | Kannada | Tamil
